---

Professional Summary

Motivated and innovative Computer Engineer with strong experience in software development, AI-powered systems, frontend and backend integration, and modern web technologies. Skilled in building responsive applications, REST APIs, and intelligent career recommendation systems. Passionate about solving real-world problems using artificial intelligence and scalable software architecture.

Education

Degree	Institution	Years
Bachelor of Computer Engineering	University Name	2022 - Present

Technical Skills

- Programming: Python, JavaScript, TypeScript, Java
- Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
- Backend: Django, Node.js, Express.js, REST APIs
- Database: PostgreSQL, MySQL, MongoDB
- AI/ML: Resume Parsing, Career Recommendation Systems, AI Integrations
- Tools: Git, GitHub, Docker, VS Code, Postman
- UI/UX: Responsive Design, Figma, Ant Design

Projects

Career AI – Graduation Project
Developed an AI-powered career guidance platform that helps students and job seekers discover suitable career paths using resume analysis, questionnaires, and AI-based recommendations. Integrated frontend and backend systems with modern responsive UI and real-time features.

Personal Portfolio Website
Designed and developed a modern personal portfolio website to showcase projects, skills, and technical experience.

Experience

Software Development & AI Projects
Worked on multiple academic and personal projects involving frontend development, backend API integration, and AI-powered applications. Focused on building scalable and user-friendly systems.

Languages

English (Professional), Somali (Native), Turkish (Basic)

Certifications & Learning

Completed online learning tracks in Python Development, SQL Data Analysis, and Time Series Analysis through professional learning platforms.
